

# Dee Runk Boxwood

A row of several Dee Runk Boxwood shrubs is shown in a garden. The shrubs are dark green, conical in shape, and have dense foliage. They are planted in a row, with a path or lawn visible in the foreground and background. The background shows a blurred landscape with more trees and a body of water.

- Excellent Conical Grower
- Lateral Branches grow at about 45 Degree Angle
- More Tolerant than other Cultivars to multiple sun Exposure
- Growth: 12 ft. Tall and 2.5 ft. wide
