

A close-up photograph of a Kalidescope Abelia shrub. The foliage is highly variegated, showing a mix of green, gold, bronze, and dark red colors. Several white, five-petaled flowers are in bloom, scattered throughout the dense leaves. The background is a soft-focus continuation of the same plant.

Kalidescope Abelia

- **Evergreen Broadleaf Shrub**
- **Foliage is Gold with Some Bronze**
- **Low Growing, Compact Shrub**
- **Growth: 2-3 Ft. Tall and 3-5 Ft. Wide**
