

Silver and Gold Dogwood

The background of the slide is a close-up photograph of the Silver and Gold Dogwood plant. The leaves are large, ovate, and have a distinct variegation pattern, with bright yellow or white edges and a green center. The stems are also visible, appearing bright yellow. The overall appearance is lush and vibrant.

- **White-Variegated Foliage and Bright Yellow Stems**
- **Deciduous Shrub With Tiny White Flowers in Spring**
- **Can be used in Bio-Retention Ponds**
- **Growth: 5-7 Ft. Tall and 6 Ft. Wide**
