

# Sweetbay Magnolia

A close-up photograph of a Sweetbay Magnolia branch. The branch features several large, glossy, green, elliptical leaves with prominent veins. Interspersed among the leaves are several creamy white, bell-shaped flowers. The background is a soft-focus green, suggesting a dense foliage.

- **Creamy White Spring and Summer Flowers**
- **Glossy Green Leaves**
- **Semi-Evergreen Tree That Can Be used in Bio-Retention Ponds**
- **Flowers Have a Sweet, Lemony Scent**
- **Growth: 12-20 Ft. Tall and 12-20 Ft. Wide**
