

Whitewater Redbud

A close-up photograph of a Whitewater Redbud plant. The leaves are heart-shaped and variegated, with a mix of green and white. Some leaves are mostly white with green flecks, while others are mostly green with white flecks. The plant is growing in a garden setting with brown mulch visible in the background.

- **Weeping Growth Habit**
- **Flowers in April and May are Rose-Purple in Color**
- **Heart-Shaped Leaves That Emerge White with Green Flecks. As Leaves Mature they are Mostly Green With White Flecks**
- **Growth: 8 Ft. Tall and 6 Ft. Wide**
