

Yellowwood

A close-up photograph of a yellowwood tree branch. The branch is covered in vibrant green, oval-shaped leaves with prominent veins. Interspersed among the leaves are clusters of small, delicate white flowers, some in full bloom and others as buds. The background is a soft-focus view of more green foliage and a clear blue sky, suggesting a bright, sunny day.

- **Small, Flowering Tree**
- **Fragrant, White Flowers in Late May**
- **Native Tree with Soft Yellow Fall Foliage**
- **Growth: 15-35 Ft. Tall and 15-25 Ft. Wide**
